**Christmas Shrink Film Ornaments**

CS4001

**Colour Pencils**

CS0091

**Metallic Yarn**

TH020G

**Coloured Jingle Bells**

CS9213

**Scissors**

DP14433

## TOP TIP

With shrink film, coloured pencils go a long way. A very light shading only will result in bold and vibrant colours.

- 1 Choose your designs and colour on the sanded/matt side using pencils or markers. Start light with your colours, as they darken during baking.
- 2 Preheat the oven to 150 °C.
- 3 Line a baking tray with baking paper
- 4 Cut out each design & place baubles on the tray, matt side up.
- 5 Bake and watch closely. Shrinkage usually starts after about 10 seconds and pieces reduce to around 60% of their original size.
- 6 Remove the tray once the baubles have curled and then flattened again. If any remain curled, gently press them flat with a spatula or oven mitt while warm.
- 7 Let all pieces cool completely until firm.
- 8 Thread cord or ribbon through the hole and tie securely.
- 9 Done! Your perfect Shrink Film Ornaments are now ready for hanging.
