

## Session for 3 to 6-Year-Olds

A thoughtfully prepared environment is like the child's third teacher, motivating children to explore and learn independently. Teachers can further support children's cognitive development and fine motor skills by providing a rich environment with a variety of teaching aids. This section introduces three activities for the "**block-building**", "**craft**", and "**language**" stations, highlighting playful ways to use Weplay desktop products and inspire learning through play.

### Required Resources

<b>A</b>	Squeezy Bee Blocks	KF0018	2 sets
<b>B</b>	Elf's Hanger	KF0017	2 sets
<b>C</b>	Crystal Village	KF0016	2 sets

## A. Block-building Station

### Beezy Squeezy Bees

Suggested Age: 4 to 6 years old  
Recommended for: 1 to 2 players

#### Required Resources

Squeezy Bee Blocks x 2 sets

#### Objectives

1. Enhance children's spatial awareness and block-building skills by connecting the Beehive Frames.
2. Build sustained grip strength and hand-eye coordination by moving the Honey Blocks using the Bee Squeezer.

#### Discover More about Weplay Squeezy Bee Blocks

Squeeze the Bee Squeezer to inflate the balloon and carry the Honey Blocks back to the hive. Its teardrop-shaped stomach attaches to the blocks easily, which helps users to practice grips and build hand muscles.

Oh no! The beehive is wrecked, and there's nowhere for the bees to store their honey. Let's help them rebuild the beehive and carry the honey back home.

The bees had such a great "honey-vest" that their old beehive is now too small. So, they built a new one that's bigger and taller. Go slow and steady, little bees. Enter the gigantic hive from the side so the honey doesn't fall out.

## B.Craft Station

### Matilda's New Wardrobe

Suggested Age: 3 to 5 years old  
Recommended for: 2 to 4 players

#### Required Resources

- A Elf's Hanger x 2 sets
- B Elf's Hanger Coloring Page
- C Crayons in red, yellow, blue, and green

#### Objectives

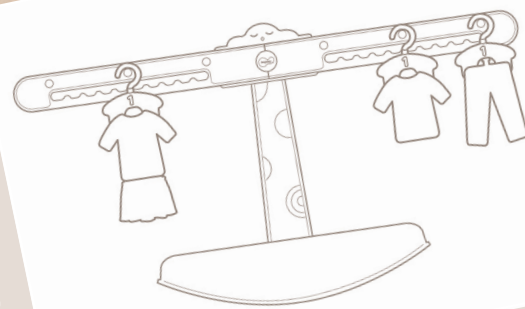

1. Practice pencil grip by coloring the clothes on the coloring page.
2. Improve fine motor skills and finger flexibility by attaching clothes and accessories.
3. Enhance observational skills and spatial awareness by hanging clothes on the scale according to the design drawing.

It's moving day! Matilda bought a wonderful new wardrobe, but she's struggling to fit all her clothes into it. After a few sleepless nights, she decided to call for your help.

Let's start by drafting the coloring page. Next, connect the clothes to the Hangers. Lastly, hang the clothes in their assigned positions. Make sure to hang them on the protruding points so Matilda can find her clothes easily.

Connecting the clothes and Hangers strengthens finger muscles and hand-eye coordination.

## C.Language Station

### The Magic Village

Suggested Age: 5 to 6 years old  
Recommended for: 3 to 4 players

#### Required Resources

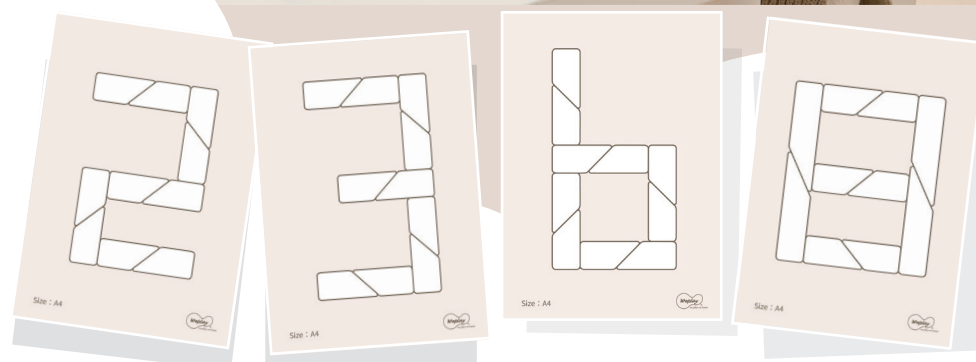

- A Crystal Village x 2 sets
- B Numbered Activity Cards
- C Transparent Board
- D Flashlight

#### Objectives

1. Encourage children to recognize and learn numbers by arranging House Blocks into number shapes based on the activity cards.
2. Help children explore light and shadow by creating different visual effects using a flashlight.

Numbered Activity Cards

On a windy, cloudy night, someone came to the Magic Village. Look! The houses are starting to float in the sky - it's the Number Fairy! He turned the houses into number-shaped building blocks, but some of them are missing. Oh no! Let's help him to rearrange the houses.

Thank you for helping the Number Fairy! To show his gratitude, he's throwing a magical party just for you. With beautiful lights, shadows, and fun number symbols... let's dance!

#### Discover More about Weplay Crystal Village

The House Blocks can be arranged into various shapes and angles, inspiring children to create patterns and symbols. Pairing with light and projection, they can also produce fun and visually appealing effects.
