

Easter Craft: Roller Print & Yarn Bonnet

- 1 Pop out each piece from the large sheet of card for your bonnet.
- 2 Use brushes or sponges to apply a thin layer of pastel paint to the pieces and set aside to dry.
- 3 Pour a contrasting-coloured paint onto a messy mat or painting tray and use a brush or roller to smooth the paint to an even layer. Only a little paint is needed to make smooth prints.
- 4 Gently roll the Easter Rollers in the paint, ensuring an even layer of paint over each raised shape.
- 5 Roll the paint-loaded Easter Roller over the cardboard pieces, leaving brush behind its colourful print. Repeat as desired and set aside to dry.
- 6 Use the strong craft glue nozzle to 'draw' wavy lines over the crown and brim pieces, snip lengths of pastel yarn and gently press into place using the glue lines as a guide. Use the craft glue to 'draw' lines and shapes to shake Bio-Glitter onto, and small blobs of tacky glue to adhere the pom poms. Set aside to dry.
- 7 To assemble, sticky tape the scalloped crown piece together by the tabs, making sure it will fit the brim.
- 8 Sticky tape the tabs on the bottom of the crown piece to the underside of the brim.
- 9 If desired, sticky tape the tabs on the top circle to the crown piece (making a shelf to hold extra decorations). Set aside to dry.
- 10 Done! The perfect Easter Hat is ready.
