

Mother's Day craft: Mother's Day Note Holder

What you'll need

Mum Note Holder
CS7340

Pastel Paper
TEB0801

Strong Craft Glue
CS0004

Felt Flowers
CS0016

Bio-Glitter – Set of 8
CS1100K

Masking Tape
DP0502

Pastel Paint
CS2095K

TOP TIP

When shaking the Bio-glitter over the MUM Note Holder, lay a piece of paper under it to catch the excess glitter. You'll be able to put the glitter back in the bottle to reuse.

- 1 Assemble the note holder by slotting the two MUM sides into the stand.
- 2 Apply your desired shades of pastel paint to the sides and stand and set aside to dry. Repeat paint application as desired.
- 3 Lay a length of thin masking tape across the front of the MUM lettering roughly 2/3rds of the way down. Press down gently.
- 4 Spread a layer of glue to the MUM letters below the masking tape line and sprinkle Bio-Glitter to cover the glue. Shake off excess and set aside to dry.
- 5 Use a pencil to roughly draw a small leaf shape onto the pastel paper, fold the paper several times (to a workable thickness to complement scissor skills) and cut out the drawn leaf. You will now have multiple leaves. Repeat as desired.
- 6 Use strong craft glue to adhere the leaves and the desired number of felt flowers to the note holder and set aside to dry.
- 7 Done! The perfect Mother's Day Note Holder is ready.
